

Business

[Better Public Services for Business](#)

Better Public Services for Business aims to significantly improve the way businesses across New Zealand work with government.

[Business growth & internationalisation](#)

We focus on policies that will help New Zealand businesses start, grow, and internationalise.

[Business law](#)

We develop policy relating to the regulation of New Zealand's capital and financial markets and market intermediaries, the conduct of its participants and their responsibilities to provide information to the public, corporate governance, financial reporting and the business law enforcement bodies.

[Competition policy](#)

Competition policy ensures that New Zealand has an innovative and efficient business sector.

[Economic development](#)

We are working to implement the government's Business Growth Agenda. In particular, we are leading work on building capital markets and encouraging innovation. We're also exploring opportunities for green growth – to develop the economy while caring for the environment.

[Intellectual property](#)

We are responsible for policy relating to the protection of intellectual property in New Zealand.

[Standards & conformance](#)

A standards and conformance system involves setting agreed standards to judge products, processes, performance and services.

[Trade & tariffs](#)

Our work on trade and import tariffs makes it easier for New Zealand exporters to trade with other countries, and maintains fair market competition.
