

Have your say

The Ministry of Economic Development is interested in hearing from New Zealanders about the issues we are working on. We keep in touch with a wide range of businesses, industry representatives and other interested people.

You are welcome to give us your views on any topic at any time.

- [Send us your feedback](#)

From time to time we seek public comment on a specific issue through a formal consultation process. When this happens we will publish a consultation document here and ask for feedback.
