

## Liquid fuel market

### [Weekly oil price monitoring](#)

Find information on average weekly prices of crude oil, petrol and diesel. Prices are based on weighted daily averages in nominal New Zealand cents per litre and take into account \$NZ/\$US exchange rate movements.

### [Duties, taxes and direct levies on motor fuels in New Zealand](#)

Find information on current charges and levies on motor fuels in New Zealand.

### [New Zealand petrol review](#)

The government reviewed factors impacting the New Zealand market, with a key recommendation being to promote transparency in retail petrol and diesel pricing.

### [Engine fuel quality](#)

Find out about the regulations governing engine fuel quality in New Zealand, and proposed updates to those regulations effective from October 2011.

### [Biofuels](#)

Biofuels are liquid or gaseous fuels produced from biomass. They are commonly a substitute or additive to petrol and diesel. Read about biofuels and the government's Biodiesel Grants Scheme.

### [Weekly oil price monitoring report survey](#)

We are seeking to improve the way we present information in the weekly oil prices monitoring report.
