28 February 2000

The Manager  
Electricity Inquiry

Dear Sir

This is a submission to ask that the Electricity Reform Act 1998 be amended to allow consumer owned energy trusts like the Northpower Trust to resume operating both functions as they did before the forced split.

Nothing was set in concrete when these zealots forced these unworkable changes on us. Likewise nothing should be set in concrete when it comes time to turn things back.

The Northpower Trust was trusted in the North; let's return to it.

Sincerely

(Signed) S R Nesbit
