To: Public Submissions - Electricity

Subject: Electricity Supply

Discussion Paper:

Review of Section 62 of the Electricity Act 1992 "Continuance of Supply"  
(2013 review).

As a tourism business working in the remote French Pass we are naturally concerned about the future of our power supply beyond 2013.

We would like our power supply maintained at the same cost as other users. The rural sector supports the whole of NZ in other ways and in our view should not be penalised with rate increases. As a newspaper carries the same per edition price throughout the province power should also be the same.

We would also like to see the same support services remain.

Kind regards Danny and Lyn Boulton
