Subject: Feedback on the TSO Review - Information Technology and Telecommunications Policy

Sprint New Zealand would like to thank the MED for this opportunity to provide comments on Telecommunications Service Obligation Review.

As the current New Zealand Relay provider, Sprint New Zealand supports a more timely and systematic approach to payments as suggested under **Section 10.3 Payment of TSO Levies by Liable Persons 252**, with interim TSO levy payments provided on a monthly basis. The interim levy payment would assist telecomm carriers with budgeting and cash flow management, in addition to being consistent with standard business practices.
